Australian Digital Health Agency

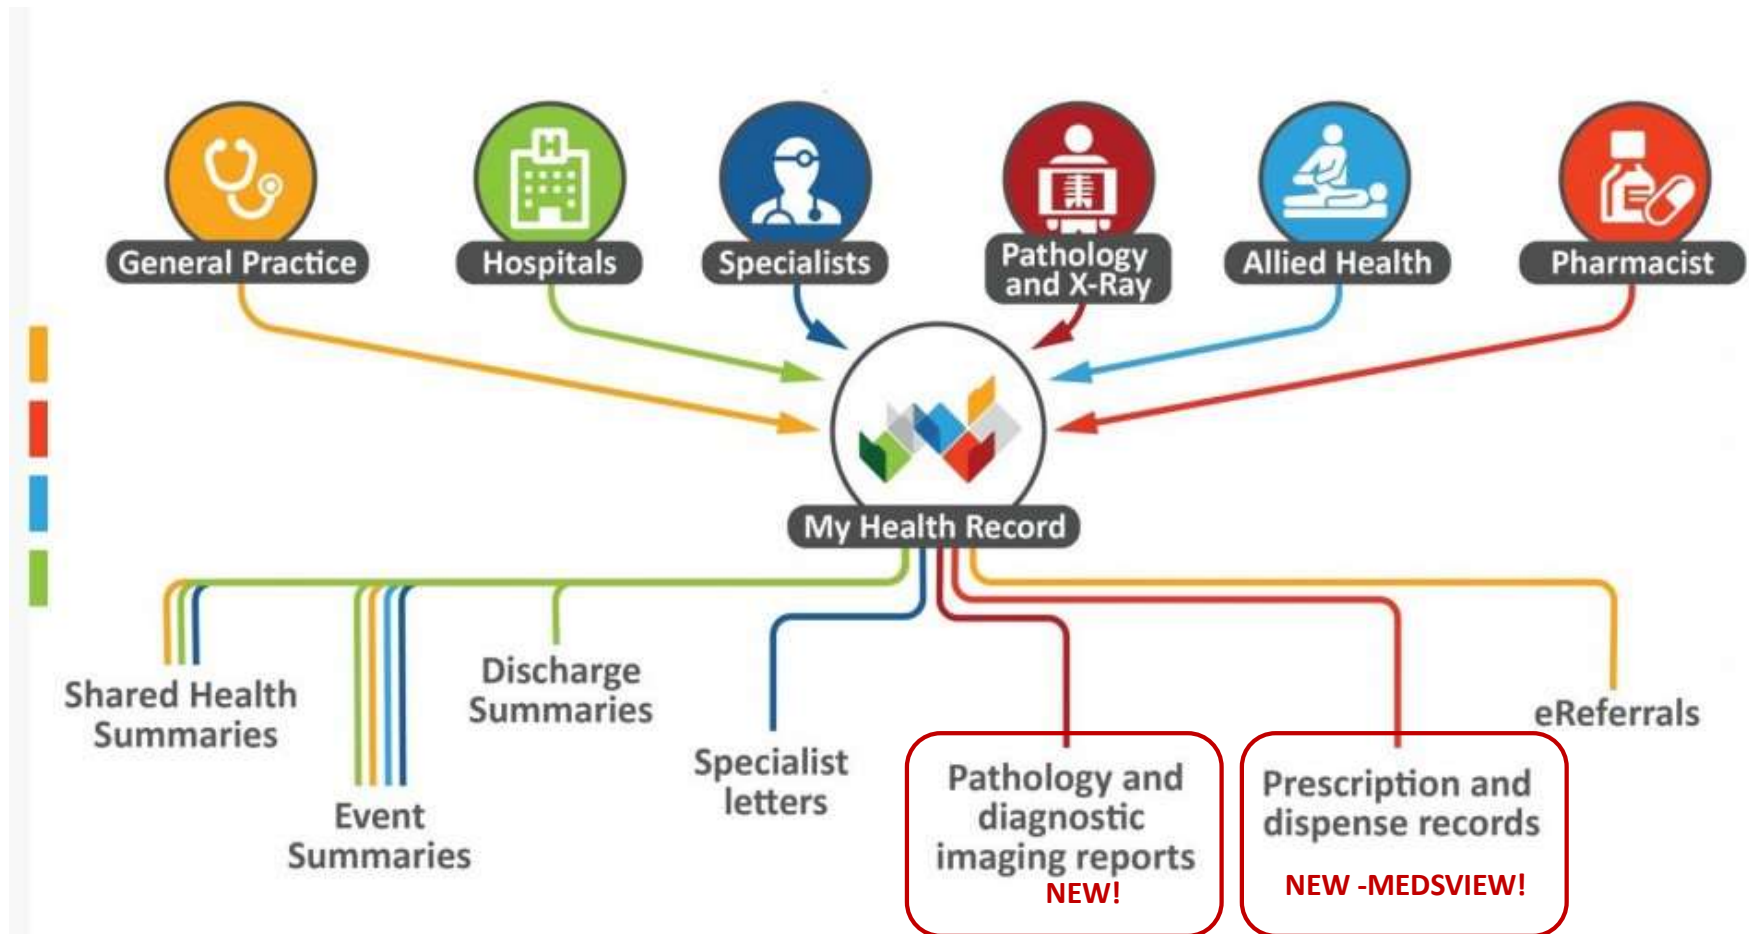

My Health Record for Capital Health Network

Katrina Otto, Senior Educator
August, 2017

Learning Objectives

- 1. What is the My Health Record system?
- 2. How can I effectively integrate use of My Health Record in practice?
- 3. How do we get started?

www.digitalhealth.gov.au
www.myhealthrecord.gov.au

Learnings and insights

Australians value our **high quality** healthcare practitioners and workers, and generally experience **affordable** and **accessible** care

65% of respondents say the Australian healthcare system is difficult to navigate. People want to know the cost, quality, and availability of services

More than **four times** as many people want to access their personal health information on their smart phone than do currently

45% of respondents had difficulty accessing healthcare when they needed it.

Top reasons given:

- Cost,
- Location, and
- Couldn't get an appointment

The **top three** activities people want to be able to do on their mobile device:

1. Manage their medications
2. Request refill prescriptions
3. Track aspects of their health

[Watch the video 'What we have learned so far'](#)

[Read Australia's new 'National Digital Health Strategy'](#)

My Health Record Expansion Program

A My Health Record for every Australian in 2018

The Australian Government announced in the [2017 Budget](#)  the creation of a My Health Record for every Australian to begin nationally from mid 2018.

If you don't already have a My Health Record, a new record will be automatically created for you, unless you choose not to have one.

Can't wait for 2018 and want a [My Health Record](#)  now?
[Register here](#)

Would you like more information? We can email* you about the My Health Record system, the automatic record creation process occurring in 2018 and details about what you need to do, and by when, if you do not want a record automatically created for you. Please enter your email address below:

* Your email address:

Submit

* What do we do with this [information](#)?

www.myhealthrecord.gov.au

How do you know who has a My Health Record?

Approximately 24% of your patients will currently have a My Health Record compared with approx. 97% by end of 2018

REGISTER FOR MY HEALTH RECORD

You can register online for a My Health Record at any time.

JOIN NOW!

Become part of the My Health Record Developer Community!

DIGITAL HEALTH TRAINING RESOURCES

Grow your knowledge of digital health and My Health Record with our guides and hands-on training tools.

DIGITAL HEALTH FOR PHARMACISTS

Pharmacists can find a range of helpful information on digital health benefits, how to use the My Health Record system in your pharmacy, and how to promote your pharmacy as being connected.

You will also find additional useful information around policies, procedures, processes, guides with examples, plus a variety of other useful information for pharmacists.

AUSTRALIA'S NATIONAL DIGITAL HEALTH STRATEGY

The strategy - Safe, seamless and secure, evolving health and care to meet the needs of modern Australia - was developed through extensive stakeholder consultation and draws on evidence of clinical and economic benefit from many sources within Australia and overseas.

ON DEMAND TRAINING

Our digital health training tool - no booking required.

Learn how to use the My Health Record system in real time using a simulated version of your clinical software.

You can upload a Shared Health Summary, view a My Health Record, and more.

APPLY FOR DIGITAL HEALTH AND MY HEALTH RECORD ONLINE

Registration forms are now online, complete with customer type and advice.

Healthcare providers and clinicians can now register for the My Health Record online and save their progress as you go.

www.digitalhealth.gov.au
– Online Forms

View your patient's My Health Record

The screenshot displays the ZEDMED software interface for viewing a patient's My Health Record. The interface is divided into several sections:

- Menu Bar:** Includes File, Encounter, Results, Reference, Voice, Library, Reports, Tools, Utilities, and Help.
- Toolbar:** Contains icons for Open Patient, Open Family, Close Patient, Waiting Room, Results Inbox, Scan, MIMS, Address Book, Travel, Batch Writer, and To Do List.
- Patient Details:** Displays information for Caleb Derrington, including Address (4 Old Tenterfield Road, PADDYS FLAT 2469), DOB (15/06/1933), Age (83 years), Medicare No (29507907111), File No (20), IHI Number (8003 6080 0004 5922), IHI Number Status (Active), Last Updated (21/01/2015 2:27:53 PM), and Referrer.
- Summary Views:** A section with a grid of tabs for different data types: Immunisations, Allergies, Images/ECG, Documents, Attachments, Measurements, Medications, Incoming Documents, Problems, Referrals, and Results. The 'Problems' tab is currently selected, showing a list of current problems sorted by Problem Text.
- Encounter History:** A section on the right showing a list of encounters. The first encounter is highlighted: 21/01/2015 (Wed) 2:34pm with Dr Carl Green at MED, for 26m 36s. The encounter notes include 'Allergy: Penicillins' and 'Immunisation'.

Allied Health

The poster features a woman in a white suit and red scarf standing next to text. The top left corner has the Australian Government and Australian Digital Health Agency logos. The top right corner has the My Health Record logo and the title 'Allied Health'. The main title is 'Allied Health – what's in it for me and my patients?'. Below this is a section titled 'Access to key health information' with a list of five bullet points. Further down is a section titled 'Greater efficiency' with a paragraph and a list of three bullet points. The bottom right corner has a decorative graphic of overlapping triangles in blue, orange, and grey.

Australian Government
Australian Digital Health Agency

My Health Record

Allied Health

Allied Health – what's in it for me and my patients?

Access to key health information

Through **My Health Record system** you can access information about your patients such as:

- Hospital Discharge Summaries
- Shared Health Summaries (which include medications, medical history, allergies and immunisations)
- Event Summaries (include information regarding a significant health event)
- MBS and PBS history – up-to-date medications
- Medication prescription and dispense records

Further, if you have compliant software, you will also be able to upload information about your patients which can then be viewed by hospitals and other healthcare providers involved in their care.

Greater efficiency

Having access to a patient's key health information can help you operate more effectively by allowing you to:

- Quickly gain a picture of the health history of your patient
- Reduce the time you spend sharing and following up to receive information about your patients with other healthcare providers (e.g. patients with chronic diseases)
- Access the same information about a patient whether you are working in the public or private setting.

Embedding into routine clinical workflow

*“This patient has an active
‘My Health Record’.
You may be able to access this
through your clinical information
system or the
provider portal”.*

Data Quality Checklist

Data Quality Checklist for all 'active' patients

1

Demographics – are the contact details up-to-date?

- Double-click on the patient's telephone number to check and update details

☐

2

Medication List – is the Current Meds list accurate?

- Right click to delete/cease medications no longer relevant [they can then be found in the Old/Past Scripts thereafter]
- If none, tick No medications

☐

3

Past History List – does it contain only significant conditions that a hospital or specialist would need to know?

- Right click to edit, delete or add new
- If none, tick No significant past history (PMH) box

☐

4

Allergies – have you also recorded adverse reactions?

- Double-click in allergies box and Add, Edit, Delete
- If none, tick No Known Allergies/Adverse Reactions/Nil Known

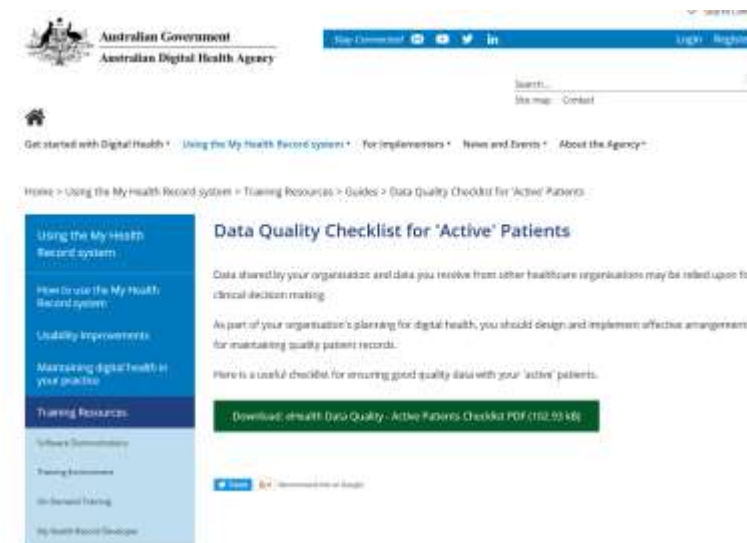

☐

5

Immunisations – have immunisations been recorded?

☐
