- Sleek, lightweight design
- Long-life rechargeable battery
- Built in thermal printer (15 lines/second)
- Secure data storage
- Available accessorie to be ordered separately: Cradle and car power cable to recharge

## Certified and intuitive terminals

Tyro's APCA certified terminals are easy to set up and intuitive to use. Just follow the step-by-step prompts on the terminal screen. Tyro Customer Support will assist you with the terminal activation and any questions regarding set up and maintenance.

## Guaranteed service availability

Tyro's terminals automatically switch between two secure live-live data centres to avoid disruptions and to consistently deliver fast authorisation times and service even during peak trading times.

## Simple and direct integration

Improve accuracy and eliminate keying errors with sale amounts sent from the POS to your EFTPOS terminal. Avoid the inconvienience and costs that arise when using third party integrators.

## Easy and automatic reconciliation

Comprehensive, real-time reporting allows you to remotely track sales and costs (at multiple locations) and to export data into the accounting suite of your choice.
