Welcome to our Webinar

Database Cleansing in Medical Director

MEDICAL DIRECTOR

Presented by Katrina Otto, Train IT Medical

Train IT Medical
Competence with Confidence

Our Learning Objectives:

1. Identify key features of BP Software for collecting quality clinical patient data.
2. Clean up past history lists, medications
3. Generate a list of ‘inactive’ patients.
4. Mark patients as inactive & deceased.
5. Build chronic condition registers through pro-active searches.

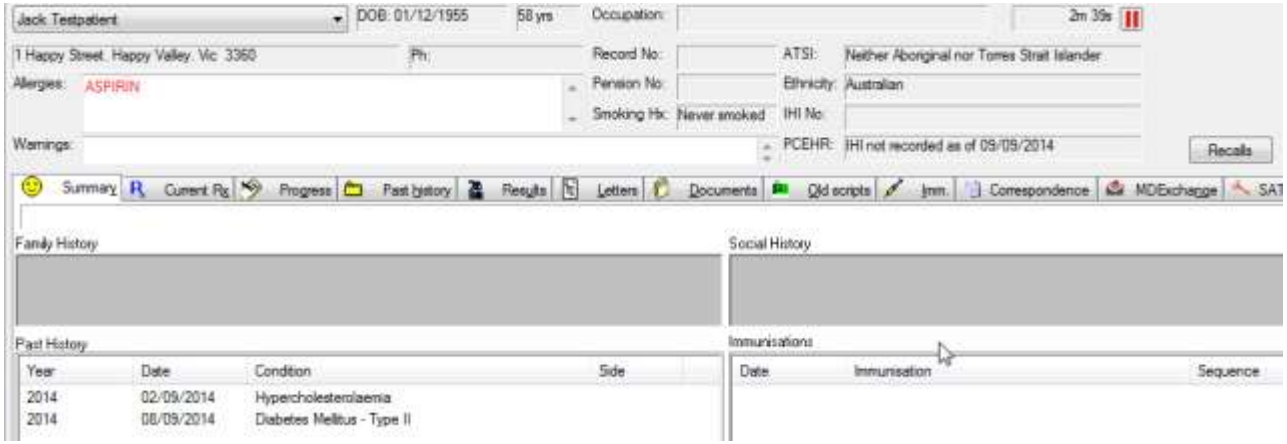
1. Patient Health Summary

- Demographics
- Allergies
- Medications
- Social/Family History
- Ethnicity

Train IT Medical
Competence with Confidence



Double-click in the area you wish to update/edit eg:

- ✓Allergies (90% of ‘active’ patients must have allergy recorded for Accreditation)
- ✓Family / Social history, Smoking / Alcohol (75% for Accreditation)
- ✓Aboriginal or Torres Strait Islander
- ✓Medications/Past History

2. Past History Items

- Coding
- Cleaning Up
