

Online Webinars & Training

with your own personal training coach

- How well are your staff able to **support health practitioners** on the job?
- Do you think your health practitioners would benefit from **medical software training**?
- Do you understand **Clinical Software Systems, Data Cleansing, new PIP & accreditation changes, Privacy & Confidentiality, Data Analysis Tools, My Health Record and Digital Health, Recalls and Reminder Systems, Healthcare Homes etc?**
- Could you benefit from **collaborating and sharing ideas**?

..... at Train IT Medical, our trainers have the benefit of working with hundreds of practices each year. We see what works well and what doesn't. Let us share our tips for success and help you take the easier path to progress

How Does Online Training Work?

- ✓ We negotiate a mutually agreeable date and time.
- ✓ We book the online session using www.gototmeeting.com and email you a link and teleconference number. This allows us to share a screen and talk throughout the session.
- ✓ Sessions can be for one staff member or the entire team. All that is needed is a computer with an internet connection and either a telephone or headset with microphone.
- ✓ If you are brand new to online learning you can check it out here first: <http://help.citrix.com/getready>
- ✓ Ask questions throughout the session to ensure a truly interactive learning experience.
- ✓ All training is completely customised for you and your practice.
- ✓ Practice-specific questions welcome
- ✓ Recordings of online training sessions are available for an additional fee

About Train IT Medical

Katrina Otto (BEd, DipBus, TAE40110) is the Principal and Owner of Train IT Medical and has over 25 years' experience as a Medical Practice Manager & Adult Educator. She is one of only a few approved national trainers for MedicalDirector Clinical & PracSoft, Best Practice Software, Pen Clinical Systems and Tyro. She is also an approved trainer for Australian Digital Health Agency, Dept of Health, Australian Association of Practice Managers (AAPM), Australian Association of Practice Nurses (APNA), Avant Mutual, AHPRA, HealthLink, Argus and others.

Katrina is one of Australia's leading Practice Management Consultants and regularly works onsite in practices on process improvement, data quality and maximising effective use technology. She is a sought-after speaker at events and has extensive experience with both the development and delivery of training programs for the health sector. Katrina has worked with as a consultant for medical defence organisations such as Avant Mutual & MDA on risk management with medical software and also worked as a consultant for Australian Digital Health Agency on Digital Health and My Health Record implementation and adoption. She works with all PHNs helping to upskill practices, training trainers and practice support staff.

Sue Cummins (BA, Dip IT, TAE40110) is Train IT Medical Senior Trainer and Project Manager. She worked as an eHealth Program Manager for 3 years and has experience as a clinical software trainer/consultant working closely with medical practices to improve their use of technology and meet accreditation requirements. Sue's background is in the private sector in IT Management roles with a focus on software systems delivery and project management. Sue specialises in quality improvement projects, Aboriginal health and process improvements for risk minimisation and efficiency improvements.

Customer Testimonials

"Katrina Otto is simply the best trainer in Australia for General Practice software, especially MedicalDirector & Bp Premier. I have organised Katrina's training in webinars and classrooms. She always leaves staff inspired to get the most out of their software to save themselves time, money and improve patient care."
Carey Doolan | eHealth Consultant

"Katrina has a great deal of experience and knowledge in medical computer software. She has assisted many doctors and their practice managers in learning how to best utilise the software. Many practitioners do not effectively use the software to manage recalls, centralised test tracking or centralised referral tracking to monitor patient continuity of care..."
Marianna Kelly, Senior Medico-Legal Risk Manager at Avant Mutual Group Ltd.

"For over 5 years I hired Katrina to provide training services to our customers both in the GP and Specialist markets. The feedback from these sessions was always positive."
Greg Atkins, Customer Service & Operations Manager eHealth), HealthLink

"Sue is wonderful!" *Karen Silva, Practice Manager, Redfern Aboriginal Medical Service.*
